OUR DOMAIN EXPERTISE

HEALTHCARE & LIFE SCIENCES

Digital is changing the foundation of healthcare and Apexon is helping drive the transformation. Apexon is collaborating with healthcare leaders across the ecosystem –providers, payers, life sciences firms, and device makers –to craft more efficient, innovative, and modern patient and provider experiences. We've helped healthcare organizations transform patient experience, deliver better care, streamline operations, enable easier information access, and accelerate groundbreaking new treatments with the help of Microsoft technologies.

BANKING, FINANCIAL SERVICES, & INSURANCE (BFSI)

The barriers to entry in banking, financial services and insurance have crumbled. Leading businesses in financial services are looking to rebuild their IT foundations to respond more quickly to changing market dynamics, fend off new fintech competitors, and build stronger customer loyalty. Apexon works across the financial services spectrum to help market leaders and emerging startups leverage digital to deliver new products and services, tailor customer experiences, add new revenue channels, and enhance customer loyalty.

HIGH-TECH

Businesses in high-tech are experiencing intense competition, shrinking margins, and challenges in providing engaging user experience powered by insights. Success requires carefully crafted digital strategies to experiment with new use cases, launch new products to gain competitive advantage and retain customers with user engagement. Apexon utilizes the latest technologies to help ISVs, infrastructure, and digital native companies accelerate innovation, enable new revenue streams and leverage analytics for new insights and business opportunities. Apexon has aided large high-tech companies worldwide redesign the overall customer experience with Microsoft being a key enabler.

LEVERAGING MICROSOFT TO DELIVER INNOVATION & RESULTS FOR OUR CLIENTS

SUCCESS STORY

HELPING A TECH-FORWARD FINANCIAL SERVICES COMPANY MODERNIZE THEIR DATA PLATFORM

- Built modern self-service data analytics platform to deliver faster insights
- Reduced onboarding time for new data sources from 14 days to 3 days
- Proposed the migration of the company's data assets to Azure cloud from its on-prem databases and Hadoop big-data platform
